

User story	#	Task	Responsible	Assignees	Estim. effort (h)	Actual effort (h)	Done (yes/no)	Notes
As a user, I want to run a script to connect to the cameras represented in the database over IP commands		1 Connect to new camera; Set up a videostream to the camera to get live-feedback in the the front-end	Shane	Shane, Hidde	6	0	no	After communicating with the Polycast, they said they don't need a livestream as they have dedicated equipment for streaming with far better latency
		2 Add option to use preset with or without iris and/or color settings	Shane	Shane	3	0	no	
As a user, I want the software to be properly tested		3 Make tests for the LocationController	Shane	Shane	4	4	yes(Hidde)	
		4 Communicate with polycast about the system	Joris	Joris, Hidde	3	3	yes	Received some very good input!
As a user, I want to select and edit a script to my liking		5 Finish the new implementation of the drag and drop functionality.	Floris	Floris, Hidde (for library importing issues)	4	4	yes	Drag & drop is fully functional now, there were some problems with the image not going out of the container, but that is now fixed
As a user, I want my script to control the cameras automatically		7 Apply presets at script actions in a running script	Hidde	Hidde, Joris	4		yes (Shane)	Key point in system. Happy that this worked out
		8 Create tests for auto-control	Hidde	Hidde, Joris	4		no	
As a user, I want to create presets for my scripts		9 Create a view to configure presets for a script	Joris	Joris, Hidde	8	9	yes	Following the feedback of Polycast, we decided to make a preset linker, which links the defined preset to their camera's.
		10 Create a connection between locations and cameras to scripts	Hidde	Hidde, Joris	3	10	yes	Revisited location view, revisioned model several times, now looks very slick
As a user, I want to make recordings and export them in a format that can be imported by my video editing software		11 Create functionality to record a script and save the data	Floris	Floris, Shane	5		no	The feedback gave us other features to implement which were far more important
		12 Create export option to export recording to importable standard format	Floris	Floris, Shane	4		no	same reason as above
As a user, I want to have a complete system and project		13 Work on final report	Floris	Floris, Shane, Hidde, Joris	15	12	yes	Not yet finished, still a lot of writing to be done.
		14 Work on final presentation	Joris	Floris, Shane, Hidde, Joris	15	12	yes	Not yet finished, some design adjustments need to be made in the app.
		15 Work on QOL improvements in system	Hidde	Floris, Shane, Hidde, Joris	8	8	yes	Made small improvements in all parts of the app.
		16 Work on architecture design file	Shane	Floris, Shane, Hidde, Joris	8			
Done, not planned								Because of the feedback of the Polycast team, plans have changed quite a bit
As a user, I want to flag actions if something is obstructing the shot or something else is wrong		Make the back-end for the flagging	Shane	Shane	1		yes	
		Make the front-end for the flagging	Shane	Floris	3		yes	
		Use the flag back-end to flag incompatible actions	Joris	Joris	3		yes	
As a user, I want a fully functional script editor		Add functionality to add presets	Floris	Floris	3		yes	
		Add functionality to edit presets	Floris	Floris	1		yes	

Review I8

Main problems encountered

- 1) Feedback from the Polycast team lead us to make huge changes in the application. This meant the sprint plan kind of fell apart. It also meant we had a lot of extra work to do in the final week. Luckily we pulled through.
