

User story	#	Task	Responsible	Assignees	Estim. effort (h)	Priority (A-E)	Reason for priority
The user can interact with the application server	1	Set up framework and github	Hidde	Hidde, Joris	4	A	Base for all other development
	2	Set up development tools (Github, Cobertura, PMD, FindBugs, Travis CI, Github)	Joris	Joris, Hidde	4	A	Code quality assurance
	3	Get to know Play framework documentation	Everyone	Hidde, Joris, Shane, Jordy, Floris	10	A	Base for all other development
The user can control the application via a web-based interface via a Windows/Mac system browser	4	Design basic web based interface for desktop/laptop (bootstrap)	Floris	Floris, Shane	3	B	Something tangible to deliver
	5	Build web based interface in HTML/CSS/Javascript	Floris	Floris, Shane	4	B	Something tangible to deliver
	6	Set up front-end stack (AngularJS, Meteor)	Floris	Floris	4	A	Base for all other development
The user is able to enter a script with actions, cameras and presets into a database	7	Set up database system, including testing tools for mocking a local database	Jordy	Jordy	5	B	Base for development of next weeks
	8	Create tables / objects for cameras and presets	Jordy	Jordy	2	B	Base for development of next weeks
	9	Create table for sequential actions (scripts)	Jordy	Jordy	2	B	Base for development of next weeks
The system is able to connect to the cameras represented in the database over IP commands	10	Create module in system to communicate with API of camera type	Shane	Shane	4	C	Base for all functionality with cameras
	11	Research documentation of camera's API	Shane	Shane	1	C	Base for all functionality with cameras
	12	Set up test environment for mocking camera's and/or connecting to a VPN provided by PolyCast	Shane	Shane	3	C	Base for all functionality with cameras
The project and system are properly documented	13	Create draft of product vision	Jordy	Hidde, Joris, Shane, Jordy, Floris	12	A	Project requirement deadline
	14	Create draft of product planning	Jordy	Hidde, Joris, Shane, Jordy, Floris	8	A	Project requirement deadline
	15	Document architecture design	Hidde	Hidde, Joris, Shane, Jordy, Floris	4	A	Project requirement deadline
