User story	#	Task	Responsible	Assignees	Estim. effort (h)	Priority (A-E)	Reason for priority
As a user, I want to run a script to connect to the cameras represented in the database over IP commands	1	Connect to new camera; Set up a videostream to the camera to get live-feedback in the the front-end	Shane	Shane, Hidde	6	B	Live-feedback is needed to assure the team the camera is in position
	2	Add option to use preset with or without iris and/or color settings	Shane	Shane	3	C	The polycast team said they use this functionallity when recalling presets from the camera
As a user, I want the software to be properly tested	3	Make tests for the controllers	Shane	Shane	4	B	We really need to get more coverage in the controllers
	4	Communicate with polycast about the system	Joris	Joris, Hidde	3	C	System requirements quality
As a user, I want to select and edit a script to my liking	5	Create a drag and drop feature for the presets to drag from the preset list to an action so a user can bind a preset to an action this way	Floris	Floris, Hidde (for library importing issues)	4	A	This drag and drop functionality would greatly improve the workflow of editing scripts etc. And now with more important tasks out of the way this is the perfect thing to focus on next
	6	Restyle the edit page in order to make it fit in with the rest of the pages	Floris	Floris, Joris	2	B	We need coherence in the app
As a user, I want my script to control the cameras automatically	7	Apply presets at script actions in a running script	Hidde	Hidde, Joris	4	A	One of the late-stage features that give a lot of value to the system
	8	Create tests for auto-control	Hidde	Hidde, Joris	4	B	System and code quality
As a user, I want to create presets for my scripts	9	Create a view to configure presets for a script	Joris	Joris, Hidde	8	B	Needed for making presets, which is essential.
